MAKE $500 DURING YOUR VACATION

The National Home and School Association, Inc., owns and controls the "Visualized Knowledge" charts—the latest adaptation of visual education. Last summer several hundred teachers were employed by the Association to enroll schools and school patrons. All found their work interesting, broadening and more profitable than teaching. Several secured permanent positions at the end of the summer.

This summer a larger number of teachers will be given positions. A liberal salary is guaranteed, with an allowance for railroad fare. A substantial bonus is paid to all successful workers. Some are paid $20 a day, some $15, some $10; but the SALARY ALONE is larger than that of the average teacher.

This is a real and unusual opportunity to spend a pleasant and profitable summer, and to further the most unique and successful idea in education of the present age. Application should be made AT ONCE as those applying FIRST and able to work the LONGEST will be given preference. Write now for an Application Blank. Address:
